Bug Fixes

History page: need to get rid of `GMT` as time is representing AWST

History page: need to make a scroll bar. When we save lots of chats it doesn't stay in our window properly

History page: shouldn't be able to save an empty chat.

All pages: Fix background image when we make the window small.

All pages: Double check that the website is going to work on chrome, firefox, edge and render properly on mobile
↳ currently not.

All pages: Ensure pictures, JS libraries, Bootstrap and CSS are properly referenced
↳ do we want to add and `alt` tag to images
↳ should probably use the image reference, not download the image as a .jpg

Login / register: readability of the summary, finish writing the summary.

READ ME. create one following the requirements on project description

Github architecture remove the files we dont need
↳ should only need whats in `website` and `main.py`.

Databases: marking key says `some evidence o
